Duties: The incumbent performs a variety of duties required to develop logistics management operations that involve planning, coordinating and evaluating the logistics actions required to support depot mission workload and resource requirements. The position serves as project coordinator for systems and equipment, prototype development, initial fabrication, production run, initial and following fielding and major modifications of complex electronic communications systems. Incumbent is assigned responsibility for specific projects, programs and procedures, and provides visibility and reporting of these projects to the depot command and higher headquarters. Participates in the planning, directing, evaluating, briefing, and coordinating of logistical actions to support the management of specified electronic communication or weapons control systems, equipment, and other designated depot level projects.

About the Position: POSITION WILL BE FILLED ON A TEMPORARY BASIS NTE 2 YEARS. SEE THE "OTHER INFORMATION" SECTION FOR ADDITIONAL INFORMATION. The Forward Repair Activity (FRA) Fort Hood is a facility that provides face-to-the field presence for Automated Data Processing Equipment (ADPE) support as well as field level support for the Common Ground Station (CGS) Program and the Tactical Operations Center (TOC). This FRA is part of Tobyhanna Army Depot (TYAD). The TYAD mission includes design, manufacture, repair and overhaul of hundreds of electronic systems for all branches of the Armed Forces. For over 50 years, Tobyhanna personnel have built a tradition of unparalleled customer satisfaction through the delivery of timely, cost-effective, and high-quality products and services. The FRA is located in the beautiful "hill and lake" country of Central Texas – between Killeen and Copperas Cover, Texas
